

CITY of NOVI CITY COUNCIL

**Agenda Item 2
May 18, 2009**

SUBJECT: Approval to award a contract for fabrication and installation of an interchangeable LED message sign on the north side of the Novi Civic Center near Ten Mile Road to Townsend Neon, Inc., the low bidder, for \$27,332.

SUBMITTING DEPARTMENT: Neighborhood and Business Relations

CITY MANAGER APPROVAL:

EXPENDITURE REQUIRED	\$ 27,332
AMOUNT BUDGETED	\$ 50,000
APPROPRIATION REQUIRED	N/A
LINE ITEM NUMBER	101-265.00-971.200

BACKGROUND INFORMATION:

Approved in the FY 2008/2009 budget is the installation of an interchangeable LED message board sign in front of the Novi Civic Center. A RFP was placed on Bid Net and six firms submitted proposals.

After reviewing all proposals and calling references, a phone interview was conducted with Townsend Neon, Inc., the low bidder. Townsend Neon, Inc., has performed work for the City of Sterling Heights, as well as several community centers, churches, and auto dealerships, and is confident they can meet the targeted completion date of June 30, 2009.

Electrical connectivity and landscaping are not including in this contract. These components are being quoted by area electrical and landscaping contractors.

RECOMMENDED ACTION: Approval to award a contract for fabrication and installation of an interchangeable LED message sign on the north side of the Novi Civic Center near Ten Mile Road to Townsend Neon, Inc., the low bidder, for \$27,332.

CITY OF NOVI
LED SIGN – FABRICATION & INSTALLATION
SPECIFICATIONS

LOCATION OF SIGN

This sign will be installed along Ten Mile Road in front of the Novi Civic Center at 45175 W. Ten Mile Rd., Novi, MI 48375. See map for proposed location.

TIMELINE

Bid Due	May 12, 2009
Council Award	May 18, 2009
PO Issued (notice to proceed)	May 19, 2009
Installation to be complete	June 30, 2009

PART 1 - GENERAL

1.1 DESCRIPTION

An LED sign is to be fabricated, according to specifications, and installed at the location specified by the City of Novi. Fabrication and installation is to be done by June 30, 2009.

1.2 SUBMITTALS

The original and each copy of your proposal shall include:

- A. Completed Questionnaire
- B. Complete Proposal Form

Separately, you will provide:

- C. Manufacturer's Literature: Submit a total of one (1) set of Manufacturer's printed specifications, mounting details, installation and drawings.
- D. Shop Drawings: Submit a total of three (3) sets of 8-1/2" x 11" drawings for each sign type. Scaled for manufacturer and fabrication of sign types. Identify materials, size, letterform, letter height, mounting, finishes and accessory items.
- E. Samples: Submit a total of two (2) 2" x 4" samples of each color represented in the project documentation.

1.3 DELIVERIES AND STORAGE

- A. Package to prevent damage or deterioration during shipment, handling, storage and installation. Maintain protective coverings in place and in good repair until removal is necessary. Store products in dry condition inside enclosed facilities.
- B. Deliver signs according to project schedule. Storage provided by contractor.

1.4 REFERENCES

- A. Publications listed below form a part of this specification to extent referenced. Publications are referenced in text by basic designation only.
1. American National Standards Institute (ANSI).
 2. Uniform Sign Code
 3. Federal Specifications
 4. American Society for Testing & Materials
 5. Novi City Code
 6. 2005 National Electric Code (NEC)
 7. 2003 Michigan Building Code

1.5 SIGNAGE LOCATION

The City will stake the location of the sign.

1.6 PERMITS

Permits and supporting documentation/calculations/drawings will be the responsibility of the contractor. City of Novi, Oakland County Road Commission and MDOT approval and permits as required. City of Novi permits must be obtained, but the fees will be waived.

Permits required include:

- Sign
- Building
- Right-of-Way
- Electrical for illuminated signage

1.7 PRIMARY ELECTRICAL

Electrical supply will be provided by the City of Novi to a point within 10 feet of the sign location. Electrical connection from there to the sign will be provided by a licensed contractor and is the responsibility of the sign contractor.

1.8 WARRANTY

Provide manufacturer's warranty against defect in materials. Warranty shall provide material and labor to replace defective materials.

1.9 ATTACHMENTS

The following exhibits are included as part of this bid package:

EXHIBIT 1 – Sign design drawing

EXHIBIT 2 – Map showing proposed location for sign

PART 2 - PRODUCTS

2.1 SIGN COMPONENTS

- A. Internal Structural Framing: Provide internal framing system, designed to withstand wind pressure specified by 2003 Michigan Building Code. Fabricate framing to profile indicated using structural angles, channels, plates and similar shapes. Provide welded construction using mitered joints. Prime and paint all structural steel welds. Cut, drill, and tap units to receive hardware, bolts and similar items.
1. Illuminated Units: Provide internal illumination as indicated on design drawings.
 2. Electrical signs must be UL labeled.
 3. Each internally illuminated sign must have a separate disconnect switch located on the sign.

2.2 SIGN MATERIALS

- A. Aluminum Extrusions: Provide alloy and temper recommended by the aluminum producer or finisher for the type of use and finish indicated and with not less than the strength and durability properties specified in ASTM B 221 for 6063-T5.
1. Provide extrusion by SignComp, 2925 Walkent Court, NW #A, Grand Rapids, MI. 877-784-0405. No exceptions allowed
- B. Paints shall be made for the surface material on which they are to be applied and as recommended by the manufacturer of the paint. Identification of paint shall be noted on shop drawings with method of application.
1. Prime coats or other surface pre-treatments, where recommended, shall be included in the work. Coatings shall be even over the entire surface to be painted without voids, runs, sags, brush or roller marks.
 2. Exterior paint finishes shall be acrylic polyurethane, satin finish.
 3. Acrylic Polyurethane finish shall be applied at the rate of 2.5 mils per coat by air or airless spray. Required manufacturer: Matthew's Paint Company.
 4. Colored Coatings for Acrylic Plastic sheet: Use paints for background colors. Required manufacturer: Matthew's Paint Company.
 5. Sign colors as indicated on design drawings and shall be exactly as specified. Sign colors shall be consistent in chroma and in value, shall maintain even opacity or translucency and be free of any imperfections.

2.3 FABRICATION

- A. General: Comply with requirements indicated for materials, thickness, finishes, colors, designs, shapes, sizes, and details of construction as indicated on design drawings.
- B. Allow for thermal movement resulting from a maximum ambient temperature change (range) of 100 degrees F (55.5 degrees C). Design, fabricate, and install sign assemblies to prevent buckling, opening of joints, and over stressing welds and fasteners. Base design on actual surface temperatures of metals due to both solar heat gain and nighttime sky heat loss.
- C. Welded Connections: Comply with AWS for recommended practices in shop welding. Provide welds behind finished surfaces without distortion or discoloration of the exposed side. Clean exposed welded surfaces of welding flux and dress on all exposed and contact surfaces.
- D. Mill joints to a tight, hairline fit. Form joints exposed to the weather to exclude water penetration.
- E. Pre-assemble signs in the shop to the greatest extent possible to minimize field assembly. Disassemble signs only as necessary for shipping and handling limitations. Clearly mark units for re-assembly and installation, in a location not exposed to view after final assembly.
- F. Conceal fasteners where possible; otherwise locate fasteners where they will be inconspicuous. Indicate all exposed fastener locations on Shop Drawings.
- G. Colors and Textures: For exposed sign material that requires selection of materials with integral or applied colors, textures, or other characteristics related to appearance, provide color matches as specified by the design drawings.
- H. Aluminum Finishes: Comply with Matthew Paint Company "Instruction Manual" for finish designations and application specifications.
 - 1. Color: Match Designer's specifications (as outlined on attached drawings).
 - 2. All scratches shall be re-primed prior to paint repair touch-ups.

PART 3 - EXECUTION

3.1 INSTALLATION

- A. Contractor is responsible for contacting Miss Dig 48 hours prior to work commencing.

B. Contractor is responsible for coordinating all work with the sub trades necessary to the successful installation of the project.

C. Installation of LED sign shall be completed by June 30, 2009.

3.2 SITE RESTORATION

A. Remove all spoils and restore site grading and vegetation to pre-installation condition.

3.3 SAFETY STANDARDS

A. Contractor is responsible for compliance with all applicable MIOSHA and Traffic Safety Standards during installation.

LED SIGN – FABRICATION & INSTALLATION

Addendum #1

INTENT: This addendum has been issued to modify and/or interpret the original specifications for the Led Sign – Fabrication & Installation bid. Unless otherwise instructed, the information contained within this Addendum shall take precedence over anything contrary in the original specifications, and shall hereinafter be considered as part of the package.

Response: The Contractor shall verify receipt of this Addendum in the Bid Proposal Form.

Contents: Included in this Addendum is one (1) page of written addenda description.

Questions:

1. Are you requesting a particular manufacturer for the LED message board?
 - A. We are requesting Hyperion or equivalent. Please indicate the make/model # you are quoting on the proposal form. If you would like to offer additional alternates, please use a separate proposal form for each alternate and indicate the model number for each one.
2. What color should the LED message board lettering be?
 - A. Amber (monochromatic)
3. What resolution do you want for the LED message board?
 - A. 16mm

Addendum #2

INTENT: This addendum has been issued to modify and/or interpret the original specifications for the Led Sign – Fabrication & Installation bid. Unless otherwise instructed, the information contained within this Addendum shall take precedence over anything contrary in the original specifications, and shall hereinafter be considered as part of the package.

Response: The Contractor shall verify receipt of this Addendum in the Bid Proposal Form.

Contents: Included in this Addendum is one (1) page of written addenda description.

Questions:

1. Note B on the drawing says the blue panel is mounted to a clear lexan backer for halo lighting around the perimeter, but the drawing does not show LEDs all the way around the perimeter of that unit, only behind the routed copy area.

A. The sign is to have halo lighting. Please include halo lighting in your bid. No new drawing will be issued.
