

Presentation 2. Catholic Central Varsity Lacrosse 2018 State Champions

Dave Wilson, Coach of Catholic Central Varsity Lacrosse. He said they had a redemption story as well. He stated the team that they played had won the previous 13 State Championships in a row. Many thought they would win again. He said they are very proud of the boys persevering, and enduring during the tough moments and making the dream come true. He said they were 20 and 2. The social media rankings Inside Lacrosse had them at #5 and US Lacrosse had them at #2 or vice versa. We finished with the 7th highest RPI ranking in the nation. They worked very hard and were very prepared. He said they were happy for the community and happy for the boys getting over the top. It is the first State Championship in the history of Catholic Central Varsity Lacrosse.

Mayor Gatt thanked them on behalf of the City Council and presented them with certificates.

AUDIENCE COMMENT:

Dorothy Duchesneau, Novi gave a short update regarding the City of Novi's Master Plan proposed "Pavilion Shore Village". She said the proposed "Pavilion Shore Village" is located at Old Novi Road, 13 Mile and South Lake Dr., south of Pavilion Shore Park, and the shores of Walled Lake. It is in an older eclectic shoreline community there you feel like you are up north, but without the drive. After several meetings with the residents and the City, Robertson Brothers Developers submitted a new proposal last week existing of all single family homes on the proposed lots they are interested in. Neighboring residents are happy to have the 3 story attached town homes off their drawing board. The next steps are up to the Planning Department. Should this development be brought forward as a PRO, the neighbors will be interested in what benefits are proposed for the neighborhood in return for the Master Plan's higher proposed density than the current R-4 the surrounding subdivisions call for. Right now, the residents and surrounding neighbors are looking forward to the Neighborhood Planning Workshop sponsored by the City with MKSK Consultants. This is being held on the lakeshore at the Pavilion Park Shelter on Aug 23rd from 6:00 pm to 7:30 pm. Neighbors are grateful for the opportunity to offer their thoughts and to participate in the process. Thank you to the Council and the Community Development Department for giving the residents a voice in their neighborhood.

Karl Migrin, 49450 W. 9 Mile Rd., Novi had some thoughts and concerns regarding Consent Agenda Items P through W. He said if the city is now at the point of taking property for construction the Nine Mile Gravity Relief sewer, the Water and Sewer Department should have all the necessary permits from Oakland/Wayne County and GLWA to go ahead with the project. He wondered if he could see the permits that have been issued for the project. If the permits haven't been issued, shouldn't these agreements be contingent upon the issuance of such permits? He mentioned the

Water and Sewer Department stated in their letter to affected residents that this project provides a benefit to the property owners on 9 Mile. He would like an explanation on how the gravity relief sewer will benefit the property owners on 9 Mile. He wondered how paying a \$54,463 sewer tap fee plus \$80/month in sewer charges is considered a public benefit when they are currently paying no sewage charges? He said many 9 Mile property owners were only allowed to build homes on parcels of property large enough to support a septic field. He wondered if the installation of this larger capacity gravity sewer means that the city will now allow them a courtesy split to build an additional home on their one-acre property. If the Villa D'Este rezoning from R-A to R-1 allows for greater densities, why not rezone all properties in Sections 29, 30, 31 and 32 to R-1.

natural features have been minimized as described in the staff and consultant reports);

- The proposed use is compatible with adjacent uses of land *(as indicated in the staff and consultant review letters and as demonstrated by the longstanding relationship of the existing development to such uses);*
- The proposed use is consistent with the goals, objectives and recommendations of the City's Master Plan for Land Use, which contemplates this use;
- The proposed use will promote the use of land in a socially and economically desirable manner, *as it is a continuation of this planned use;*
- The proposed use is
 - (1) listed among the provision of uses requiring special land use review as set forth in the various zoning districts of this Ordinance, and
 - (2) is in harmony with the purposes and conforms to the applicable site design regulations of the zoning district in which it is located.
- b. Landscape waiver from Section 5.5.3.F.ii to allow 37 fewer multifamily unit landscaping trees than are required (87 required, 50 provided) because the existing and proposed landscaping on the site are substantial and sufficient to accomplish the intent of the ordinance.

This motion is made because the plan is otherwise in compliance with Article 3, Article 4, Article 5, and Article 6 of the Zoning Ordinance and all other applicable provisions of the Ordinance.

Approval of the request of Erickson Living for JSP 18-19 for the Revised Preliminary Site Plan with a PD-1 Option, and the Fourth Amendment to the Development Agreement (with any final adjustments to be made by the City Manager's Office and City Attorney), and approval of the Revised Phasing Plan, Revised Wetland Permit, Revised Woodland Permit, and Revised Storm Water Management Plan, subject to and based on the following:

1. Waiver from Section 3.8.2.C for a building exceeding 180 feet in length, up to 316 feet proposed, *because the interconnected facility will better serve the population and*

the ordinance allows the City Council to modify building length when additional setback from adjacent uses is provided, as it is in this proposal;

2. **Waiver from Section 5.16 for providing bicycle parking in one location rather than two as consistent with the use at issue;**
3. **Waiver from Section 5.16 for not providing a 6 foot sidewalk access to bicycle parking, because the existing 5 foot sidewalk would need to be demolished and reconstructed;**
4. **A Section 9 waiver for the following deviations as the proposed percentages of materials are consistent with the existing facades:**
 - a. **Exceeding the 25 percent maximum allowed percentage of EIFS on 3 facades (proposed: North – 29 percent, South – 31/32 percent and West – 32 percent);**
 - b. **Exceeding the 10 percent maximum allowed percentage of CMU on the west facade (proposed: West – 14 percent);**
5. **Landscape waiver from Sec. 5.5.3.F.ii.b(1) for a reduction in the total number multifamily unit trees provided (87 trees required, 50 provided) as the existing and proposed landscaping on the site are substantial and sufficient to accomplish the intent of the Ordinance;**
6. **The findings of compliance with Ordinance standards in the staff and consultant review letters and the conditions and the items listed in those letters being addressed on the Final Site Plan.**

This motion is made because the plan is otherwise in compliance with Article 3, Article 4, and Article 5 of the Zoning Ordinance, Chapter 11 and Chapter 37 of the Code of Ordinances and all other applicable provisions of the Ordinance.

Member Mutch said he had a question for City Planner, Barb McBeth. He mentioned they received some correspondence in the Planning Packet from nearby residents concerned about ongoing construction at Fox Run. He said it was a large site and there has been quite a bit of activity over the years. He wasn't clear if after this particular phase was completed, are there additional units that may be attached to central facility related to the assisted living units. How many units are associated with that? Ms. McBeth said that was correct. The initial approval in early 2000's provided a certain number of units that could be continuing care facility. At this point they haven't reached that number just yet. The plan that was provided in the packet is slightly different from the initial plan. She understood that the applicant would still like to reserve the opportunity to complete those continuing care units sometime in the future. Member Mutch reiterated that there may be some additional activity there. He

wondered if there are additional phases or sub-phases beyond that which still need to be constructed. Ms. McBeth replied, yes, on the north side of the Ring Road there are still 3 or 4 buildings that are planned to be constructed. Member Mutch wondered how many units are outstanding. Ms. McBeth said she didn't have the number off-hand; maybe the developer could answer that question. J.J. Willhower, Erickson Living said on the north side of property, the zoning allows for 370 additional units. That's the approximate number they would meet or stay below with that future phase. Member Mutch wondered if he had timeline. Mr. Willhower said it was future as demand. The development would take a couple of years from beginning to end. Member Mutch thanked him for clarifying the timeline and number of units.
